

NATIONAL MEDICAL DEVICE PROVIDER

Telecom Management Resources
2018
Q1 Newsletter

SCOPE

Our client provides custom medical devices to consumers through more than 700 offices in the United States. TMR has undertaken three initiatives to date. These include reduction in local exchange carrier costs through site

audits, removal of unneeded and excessive features and service, and long distance billing problems. TMR documented service at all branch locations. Using its proprietary methodology, TMR was able to document \$93,000 in annual savings on

*"TMR managed correction of long distance billing problems including all vendor coordination. **Annual cost reduction exceeds \$200K.**"*

local service. TMR was able to identify unneeded and unused services. Recommendations for annual reductions of \$37,200 were produced and accepted, TMR managed correction of long distance billing problems including all vendor coordination.

Annual cost reduction exceeded \$200,000.
